ROLLER TEAM

An Italian reality dedicated to plein air tourism

WHERE ENTREPRENEURIAL SPIRIT AND TECHNOLOGICAL APPROACH HAVE ALLOWED TO REACH EXCELLENCE AT INTERNATIONAL LEVEL

A **brand recognised** for features such as dynamism and innovation, which conceives and manufactures motorcaravan that combine style with technology and quality for unforgettable travel experiences. Roller Team is close to the customer everywhere with excellent service. There are hundreds of qualified outlets that distribute the **Roller Team** brand today: a comprehensive sales network spread throughout the major European countries. It's thanks to its distribution partners that Roller

Team **is close to its clientele everywhere**, ready to satisfy customers' every requirement with appropriate tools and a wide range of pre-sale and aftersales services.

An **organised, targeted network**, product development in keeping with the habits and needs of different cultures, distribution agencies in the area, staff from the area: these are the secret weapons with which Roller Team presents itself on international markets with growing success.

WHY CHOOSING ROLLER TEAM

WHY CHOOSING

A VAN FOR EVERYONE

Roller Team offers a wide selection of models that can meet any customer's needs. The offer of models, organized in three ranges, is able to meet the customer's different and growing needs with a product differentiated by style and features.

A VAN ALWAYS IN STEP WITH THE TIMES

Our constant technological innovation in production processes combined with continuous renewal of the product with cutting-edge technical-constructive solutions, allow us to offer a product of the highest quality that can last over time. Roller Team responds to the needs of life in the

open air with solutions that make the stay on board pleasant. These include thermal and acoustic insulation and resistant and beautiful materials such as acrylic stone and HPL laminates.

A VAN THAT IS EASY TO LIVE IN

Solutions that meet daily needs and allow you to experience every space with maximum comfort and practicality. The environments are transformed by simple gestures to adapt to the different needs of the moment. All the areas offer solutions down to the details that can improve life on board. Transformable garage volumes suit any type of use, with retractable or removable beds and open space in the living area.

The certainties

MORE INSULATION, MORE PROTECTION, LESS NOISE

The Roller Team vehicles are well insulated and quiet, thanks to EXPS Evo technology, which guarantees absolute protection as regards insulation. High-performance insulation materials, quality construction techniques, specialised production departments with one goal: the best customer comfort, everywhere and for a long time.

SUITABLE FOR ALL SEASONS

Roller Team uses technologies and materials that ensure high performance and a perfect climate. To always feel comfortable inside the vehicle regardless of the outside temperature. The Italian with "Nordic" features.

UNDER CONTROL

Roller Team I puts its own experience and expertise at the service of every customer. A team dedicated to quality control and continuous improvements follows each vehicle throughout the production stage with inspections and tests from design to delivery. In safe hands.

AS YOU LIKE IT

Easily customise your vehicle to suit your needs. Roller Team offers additional packs and accessories that adapt perfectly to the individual models increasing their versatility, optimising their functionality and boosting their performance.

ACCOMMODATES THE UNEXPECTED

An interior design and distribution for rooms characterised by ergonomics, practicality and functionality. The interior can be adapted to every need. Flexible spaces and variable volumes. Garages made properly, insulated, protected, washable, accessible and easy to load. Convertible rooms for every crew or holiday need.

10-YEAR WARRANTY

10-year warranty against infiltration. The quality of production processes, technological innovation and choice of materials provide value over time.

The Roller Team offer

LIVINGSTONE

**EVERYTHING IS READY TO GO.
The thrill of adventure.**

Start exploring the world with **Livingstone**, a robust vehicle with a simple, practical style, with everything you need to set off on a thousand adventures. ROLLER TEAM CERTAINTIES

WHY
CHOOSING

PROTECTED IN VAN, EVERYWHERE.

In any climate.

WE CAN STATE IT WITH CERTAINTY, BECAUSE WE HAVE TESTED OUR VANS IN A CLIMATE CHAMBER ACCORDING TO EN 1646- 1 STANDARD.

This requires reaching 20°C inside the vehicle within 4 hours of the switching on of the heating system with an external temperature of -15°C.

Livingstone Sport and Advance reached their target in 3.5 hours, **winning a performance of “Grade 3.”** The result is **equal to the performance of an average camper** (with a length of 7.4 meters and a rear central bed) which has an internal volume greater than 30% compared to the van, construction, bodies and very different materials.

Want even more?

You can choose between two optional levels of fitting options that improve comfort on board in harsher conditions.

solo per
Livingstone SPORT
e Advance

ARCTIC PACK

- Boosted heater at 5 or 6 kW, depending on the range
- Digital multi-control panel
- Winter Pack (grey water tank insulated with a 15-mm layer of polyurethane, electrical probe with thermostat positioned close to drain valve, insulation of external water pipes; insulation of external heating pipes)
- Thermal cover for cab dashboard
- External thermal cover for the cab
- Curtain kit (pleated dinette curtain and rear door curtains)
- Thermal insulating window covers

WINTER PACK

(INCLUDED IN ARCTIC PACK)

Grey water tank insulated with a 15 mm layer of polyurethane -
Electric probe with thermostat positioned near the drain valve -
External water pipe insulation - Insulation of external heating pipes.

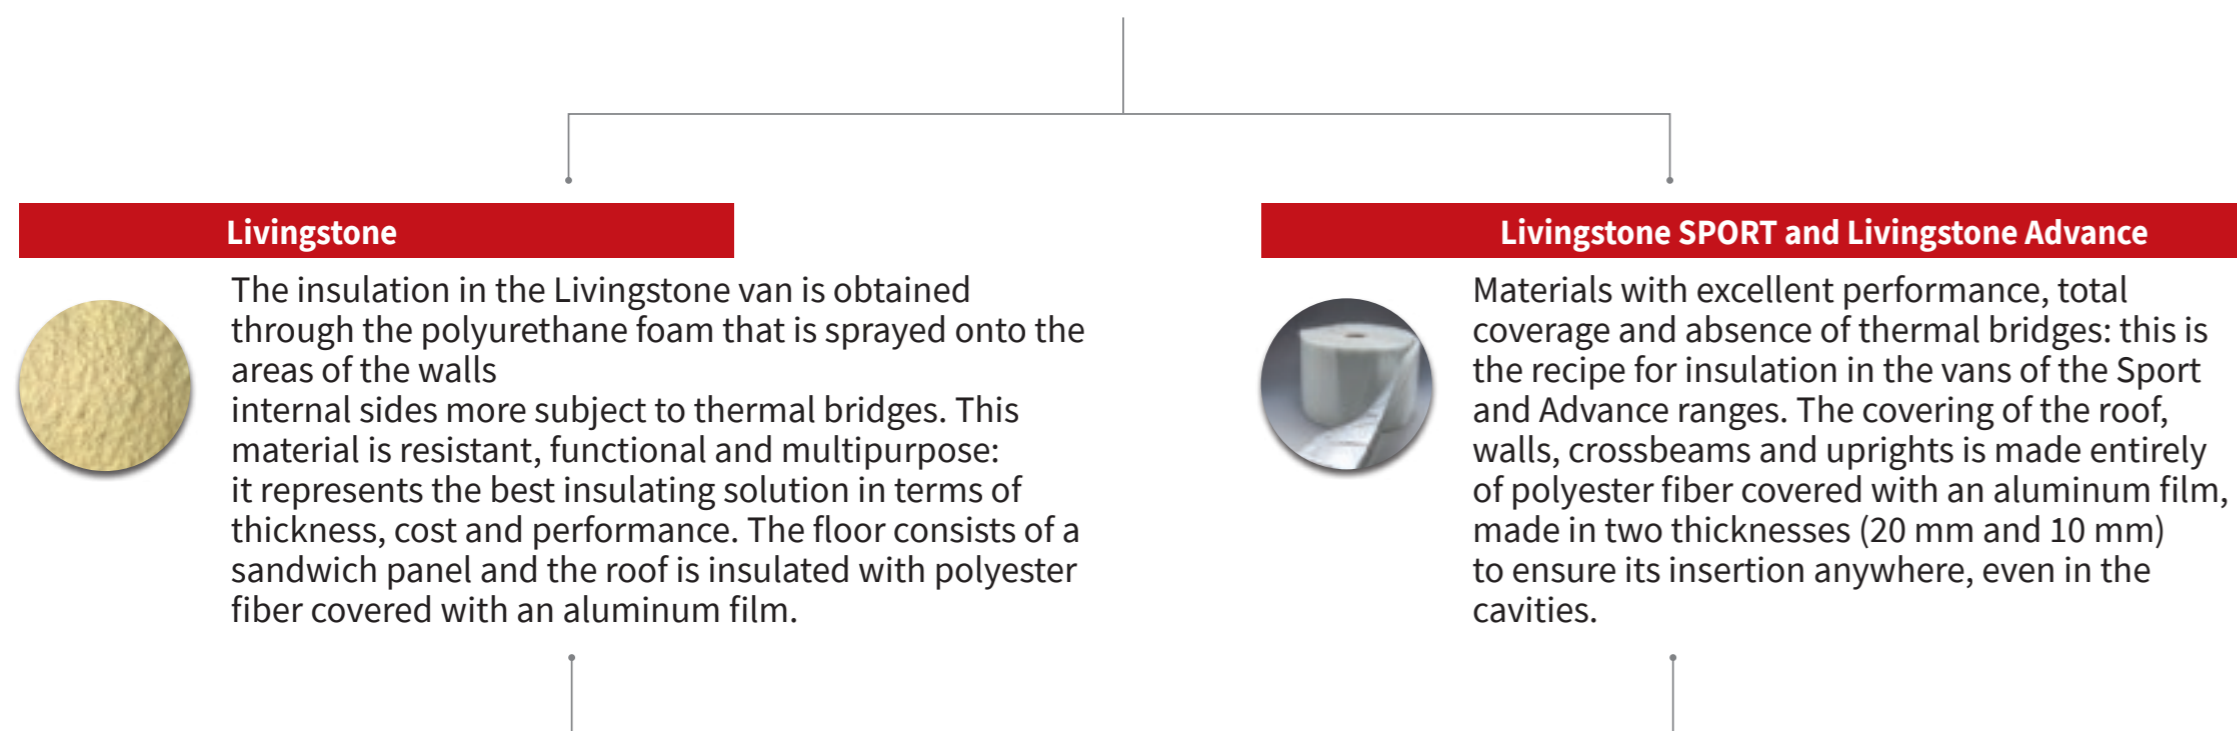

* Rear door curtains not available in the Livingstone range.

On a carefree journey; you will always be protected and safe, in every season.

LIVINGSTONE VANS ARE WELL INSULATED AND SILENT VEHICLES, THANKS TO THE EXCLUSIVE EXPS EVO TECHNOLOGY THAT ENSURES INSULATION AND INTERNAL PROTECTION FROM BOTH EXTERNAL TEMPERATURES AND NOISE.

10-year guarantee against infiltration.

10-YEAR WARRANTY

QUALITY AND VALUE OVER TIME.

That is why **ROLLER TEAM** created **BODY CONSTRUCTION INTEGRITY WARRANTY**, the warranty that gives you 10 years of peace of mind with your motorcaravan. We want our customers to trust their **ROLLER TEAM** as much as we do.

By choosing a **ROLLER TEAM** motorcaravan you join the 10-year **BODY CONSTRUCTION INTEGRITY** programme.

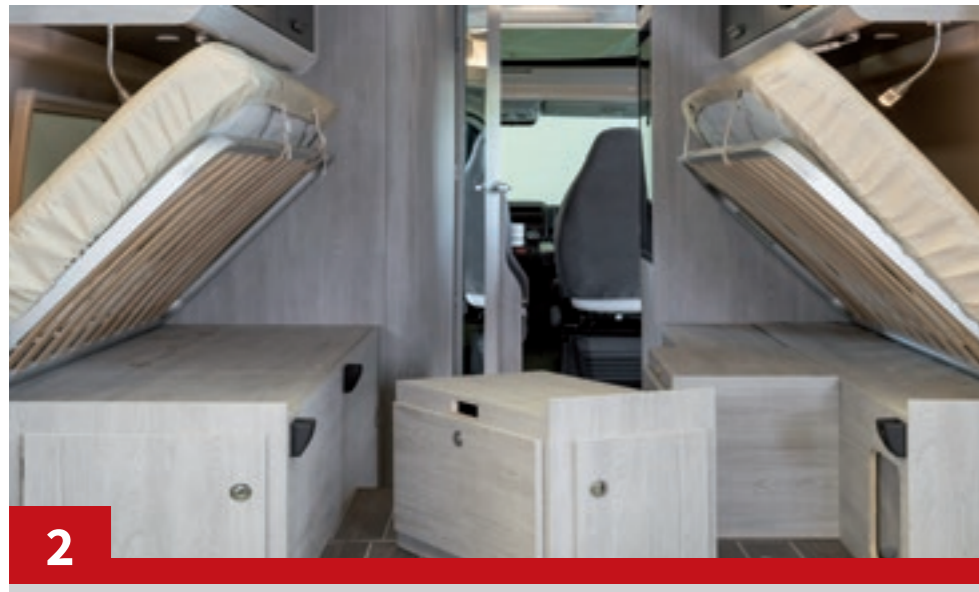

It is a prolonged warranty programme against infiltration by carrying out regular maintenance at the authorized sales network.*

*For the detailed conditions ask the authorised sales network.

TODAY I WANT YOU LIKE THIS!

LIVINGSTONE DUO

The super flexible. Winning combinations every time. The rear side adapts its shape according to your needs.

Three wardrobes that can be removed separately

Elevating bed bases

Removable, adjustable-volume double flooring

Extra load without taking up space

Stowage

A single environment with multiple spaces.

The entire Roller Team van range offers stowage solutions that can adapt to any need. The form, furnishings and design choices guarantee great living volume. All the space is designed with a view to maximum functionality, modularity and ease of use.

LIVINGSTONE DUO XL

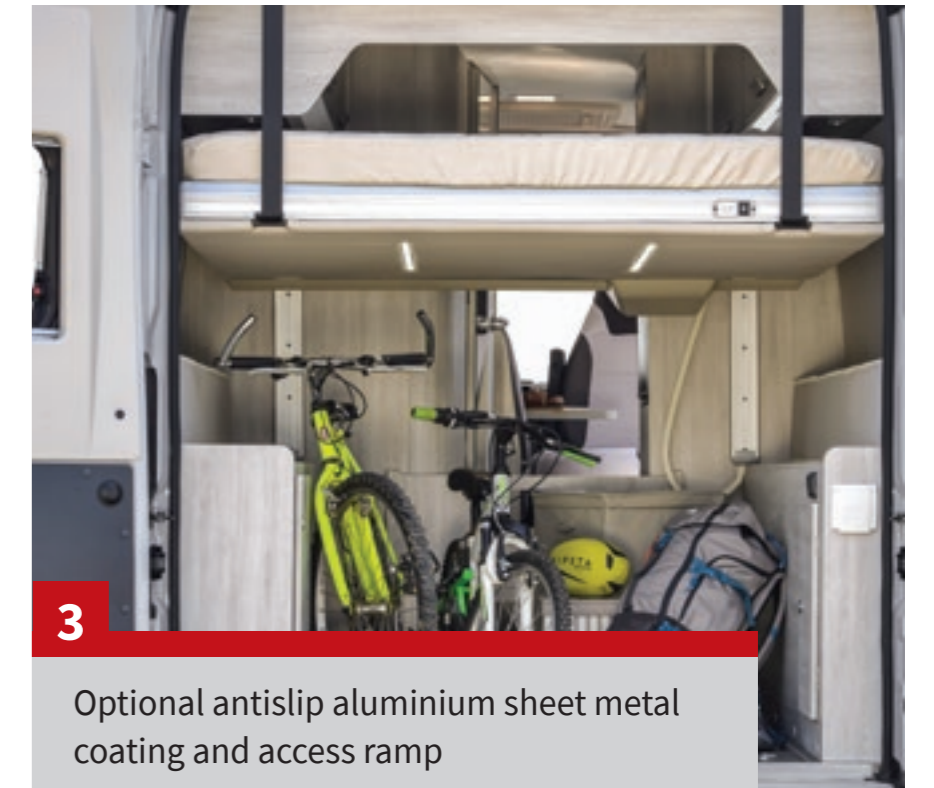

The modular garage for extra large loads. The only garage that reaches up to 2,400 litres of loading volume. Perfect for stowing sports equipment such as bicycles and surfboards in complete safety.

Electrically operated elevating bed with straps that stops at the height you want

Electric socket and water outlet with pull-out spray

Optional antislip aluminium sheet metal coating and access ramp

All bed bases in the van range can be elevated and/or removed, partly or completely, to meet your stowage needs, even the most bulky ones.

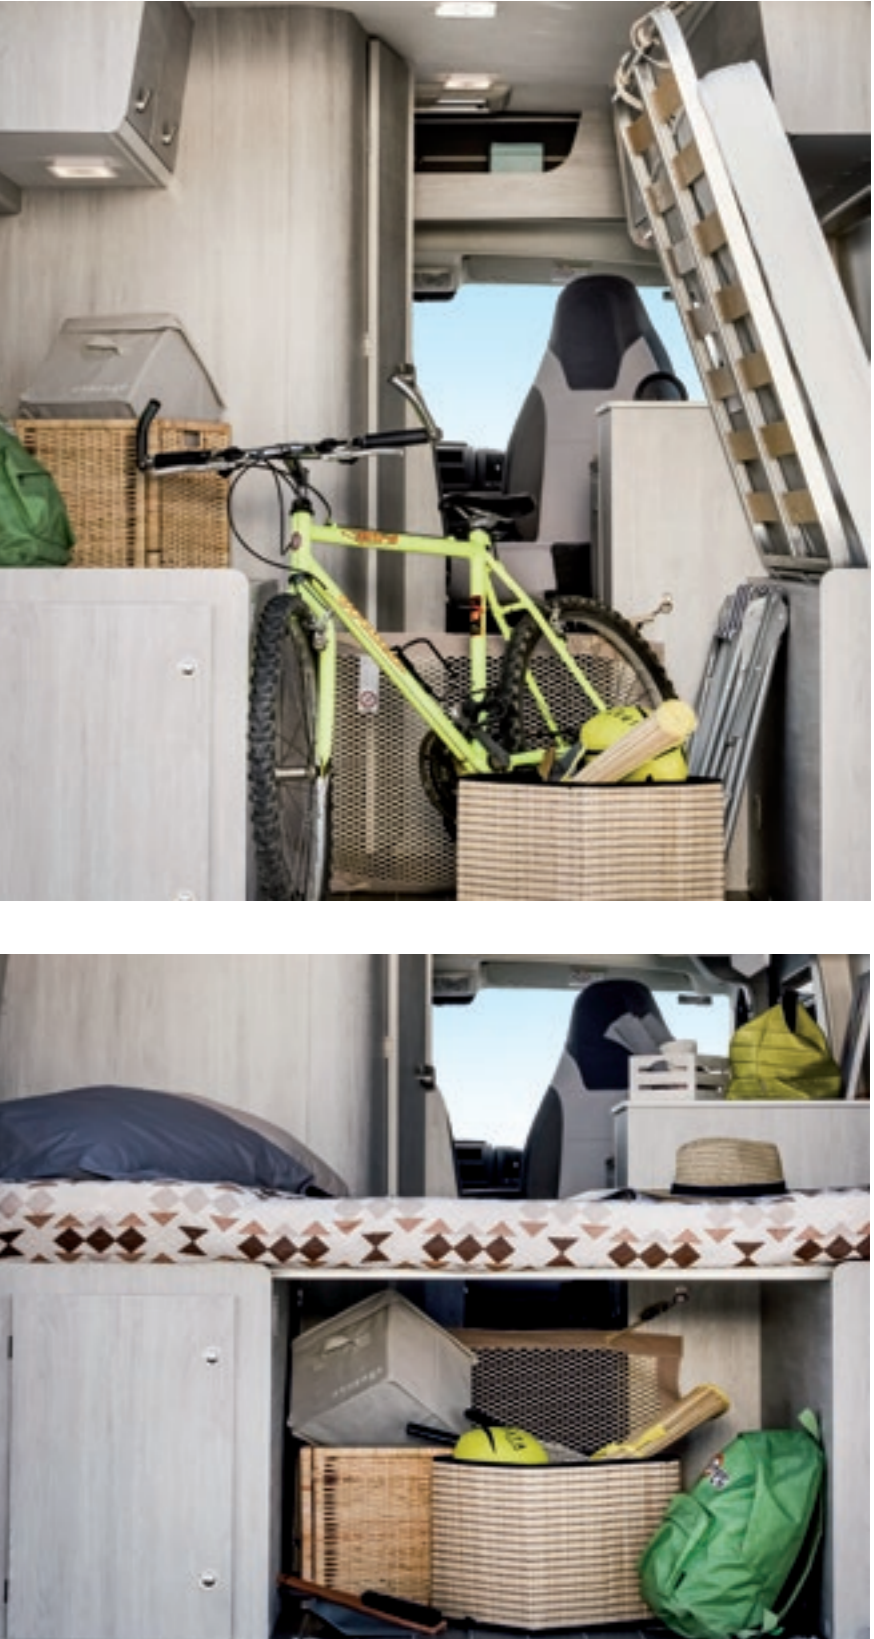

Many solutions can guarantee the maximum load volume and the best use of the available space. Roomy wall units and spacious wardrobes with depth suitable for hangers. Storage compartment in the floor. Stowage compartment in the seating group.

Smart stowage

Garage equipped with maximum modularity for the transport of even larger objects (bicycles for example) thanks to the removable or liftable beds. Stowage compartments and compartments under the beds for load flexibility. Space for two gas cylinders.

Created from the continuous cooperation with manufactures, Fiat Ducato is the perfect combination of chassis and living unit.

ELECTRIC POWER STEERING SYSTEM

The electric power steering system replaces hydraulic system on whole range. Moreover, the electric steering system offers:

- ▶ Power supply technology adapts steering effort to vehicle speed.
- ▶ Increased steering precision.
- ▶ Higher driving pleasure, while reduces effort during parking maneuvers.
- ▶ Improves fuel consumption and reduce CO² emissions thanks to the adaptive energy consumption.
- ▶ Keep current steering ratio.
- ▶ Engine bay is freed from former hydraulic power steering specific parts.

Euro 6D Final

120 PH / 140 PH / 180 PH

ESC Electronic Stability Control

On the Ducato, the system has 3 features:

- ▶ CROSS WIND ASSIST. Through the use of brakes, intervenes to help stabilize the vehicle through strong crosswinds, helping to keep the vehicle from drifting out of its lan.
- ▶ TRAILER STABILITY CONTROL SYSTEM. Detects when a trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of either torque reduction and/or individual wheel braking.
- ▶ POST COLLISION BRAKING SYSTEM. Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions.

MANUAL CAB CLIMATE CONTROL

Enhanced and diffused ventilation to the entire cab.

Higher resistance and life.

Available on Livingstone Sport and Livingstone Advance ranges.

Vehicle in climatic chamber

Tested in climatic chamber!

-  **Test in climatic chamber** from -15°C to 40°C.
-  **Heat radiation test** on the surface of the sun roof at 65°C; 75°C; 80°C; 85°C.
-  **Low temperature test** (Freezing test at -15°C) to check for possible ice formation in the perimeter of the glass and prevent any damage or malfunction.
-  **Vibration test**, with simulation of 820 km on a special route (cobblestones).
-  **Infiltration test** carried out during low temperature and vibration tests.
-  **Visual check** to identify any deformation damage in the surfaces of the Sun Roof.

Some features of the vehicle shown do not correspond to the final features for the current season.

Roller Team puts its own experience and expertise at the service of every motorcaravan produced and follows it throughout the production stage with inspections and tests from design to delivery that meet with European standards. The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out when the material is received and before it is used in production.

1

Tests in research and development and prototyping stage

- Specific testing in climate chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.
- Performance tests on the components used: durability of mattresses, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

2

Checks in production stage

 Correct installation of the hydraulic systems.

 Check on operation and correct installation of the electrical systems.

 Test on operation of the gas pipes.

3

Test on finished product

 Waterproofing tests on 100% of the vehicles produced, before delivery.

Some features of the vehicle shown do not correspond to the final features for the current season.

check

100 statistical checks on a percentage of the vehicles produced: aesthetic, functional, noise and fitting tests.

 Electronic weighing of 100% of vehicles before delivery and written weight certification for end customer.
